

## PAM: PRINT & APPLY MACHINE

EFFICIENT. RELIABLE. AUTOMATED.

Complete Automation Resource has been in business since 2010 with combined 200+ years of industry experience, we offer products that will suit your needs and scale with your business. PAM is a standalone, all electric machine which conveys, measures, weighs, identifies, prints, applies shipping labels and verifies the carton, ensuring it's ready to ship.

### FEATURES:

**Preassembled:** Complete Automation Resources PAM will arrive at your facility fully assembled and functional. With this hassle-free solution, you get all the benefits of a single supplier so you can keep your focus on your business.

**Automatic:** PAM automatically prints and applies shipping labels to help reduce labor costs. Pam automatically captures the weight and dimensions of your parcels to help eliminate freight charge-backs. And provides real time data to management to increase you order throughput.

**Affordable:** With off-the-shelf components, PAM is easy and cost effective to maintain. PAM is 100% electric run, eliminating the need for compressed air, which helps decrease your energy costs.

**Simple:** Ignition software provides a user-friendly interface that can integrate with any existing platform. PAM is database centric and can connect to any database style WMS ERP system.

**PAMs software allows it to sort your packages with ease.** So if a parcel's label isn't verified it will not make it to the shipping stage of the process.
